FreeLo — Screens to design

Launch version (MVP) · listed in build order · 12 November 2026

DONE already designed REWORK designed, needs changes NEXT needed first
PHONE FIRST clients open it from WhatsApp

> **Order:** design sections 0, 1 and 4 first (Settings is the next thing coded). Design the three public client pages (form, devis, invoice) at phone size first.

0 Design system NEXT

- **Foundations:** colors (one primary: green, plus the purple logo?), one type scale, spacing, radius, shadows. Light theme only in v1.
- **Components:** button (primary / secondary / ghost / danger), input, textarea, select, checkbox / radio, date picker, DA amount input, table (sort, row actions), status badge, tabs, dialog, side drawer, toast, dropdown menu, avatar, empty state, loading skeleton, pagination.
- **French check:** try every screen with French labels (20–30% longer than English).

1 App shell & dashboard sidebar NEXT

```
[Logo] Workspace name ▾        ← workspace switcher (+ "Create another workspace")
       Solo plan · 12 days left

Today                           ← overview page
+ New ▾                         ← quick create: lead, devis, project, invoice

SALES
  Forms
  Leads              (3)        ← new-leads counter
  Devis
  Contracts

DELIVERY
  Clients
  Projects

MONEY
  Invoices           (1)        ← overdue counter

Help

[Upgrade card]                  ← trial days left / "Upgrade to Studio"
[Avatar] Name · email ▾         ← account, language (EN/FR), sign out
```

- **Page header:** page title + main action of the page; notification bell later (v1.1).
- **Phone:** the sidebar becomes a drawer behind a ☰ button.
- **Not in the sidebar:** Services (moves into Settings), Messages and Reports (v1.1), no separate CRM page (Leads + Clients cover it).

2 Auth DONE small additions

- Sign in DONE · Sign up DONE
- Check your inbox + "link expired" state
- Forgot password · Reset password
- Accept an invitation — 3 states: signed out / signed in with the wrong account / join
- Workspace picker

3 Onboarding REWORK

- Step 1 — Your business: name, logo
- Step 2 — Your skills: chips only (tap to select, add your own)
- Step 3 — How you work: team size, typical budget, invite teammates
- Ready — checklist + "Go to my dashboard"

4 Settings NEXT

- **General:** name, logo, document language
- **Business details:** legal name, NIF, NIS, RC / auto-entrepreneur card, address, wilaya, phone
- **Payment details:** CCP, RIP, RIB, BaridiMob, note
- **Tax:** subject to TVA or not, rate, exemption mention
- **Services catalog:** list, add / edit (price, unit), reorder, archive
- **Members** REWORK
- **Plan & billing:** current plan, limits used, upgrade, payment instructions
- **Account:** name, language, password, delete my account
- **Danger zone:** delete the workspace (type its name to confirm)
- **"Missing details" dialog:** asks only the missing fields before a devis or invoice

5 Clients

- Clients list (search, archived filter)
- Client detail: info, contacts, projects, devis, invoices, timeline
- Add / edit client dialog · Add / edit contact dialog

6 Forms & Leads

- Forms list
- Form builder: drag & drop fields, preview, publish
- Share dialog: copy link, WhatsApp, embed code
- **Public form page** PHONE FIRST + success page
- Leads list: table, status, filters, "new" badge
- Lead detail: answers, notes, follow-up date, AI summary, timeline, "Create devis", "Start project"
- Add lead manually dialog · "Mark as lost" dialog (reason)

7 Devis (quotes) — the core

- Devis list (draft / sent / viewed / accepted / expired)
- Devis editor: client, lines, options / packages, payment schedule, "Draft with AI", live preview

- Send dialog: link, WhatsApp, email
- **Public devis page** PHONE FIRST : view → choose option → accept ("bon pour accord" checkbox + name) → email code → success
- **Devis PDF (A4)** with space for signature and stamp
- Version history / "this version is locked" state

8 Contracts

- Contracts list · Contract editor (from a template) · Contract PDF (A4)
- Upload signed copy dialog · Contract templates manager

9 Invoices & payments

- Invoices list: status, amount due, overdue
- Invoice editor + "generate from the payment schedule"
- Record a payment dialog (method, amount, date, reference)
- **Public invoice page** PHONE FIRST with payment instructions
- **Invoice PDF (A4)** with all the legal mentions

10 Projects

- "Start project" dialog — from a devis, a lead or a client; pick a template
- Kanban board (by stage)
- Project detail: overview, tasks, files, linked devis & invoices, timeline
- Project templates manager

11 Today (overview)

- Base: your light "Overview" frame — needs attention (follow-ups, unpaid invoices, devis waiting), counters, active projects, recent activity, getting-started checklist.

12 Plans & limits

- Pricing / upgrade page: Free · Solo 3 000 DA/month · Studio 5 000 DA/member/month
- Trial banner ("12 days left") · "Limit reached" dialog
- Payment page: BaridiMob / CCP instructions → "pending activation"

13 System states

- 404 · error page · offline
- Empty state for every list · loading skeleton for every page
- Toasts (success / error) · confirm dialog

14 Emails one branded template, many texts

- Verify email · reset password · password changed · invitation
- Devis sent · verification code · devis accepted
- Invoice sent · payment received · trial ending

15 Marketing site REWORK

- Home: show only what launches (v1.1 features marked "coming soon")
- Pricing in DA
